**RESPONSE TO RESTRICTION REQUIREMENT**

Mail Stop Amendment  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This responds to the Restriction Requirement, dated June 19, 2006. In response to the Restriction Requirement, Applicant elects Group I, claims 1-7, 16-23 and 28 for examination. This election is made with traverse.

The basis of traversal is that Group II, claims 8-15 and 28 should be included with Group I, claims 1-7, 16-23 and 28. Applicants respectfully submit that the enzyme electrode recited in any one of Claims 8-15 and 28 is a specific embodiment of the invention recited in Claim 1. The enzyme electrode recited in Claim 8 is an enzyme electrode with the elements of Claim 1 and further comprising an electrode protective layer covering the portion of electrode; a binding layer comprising a silane-containing compound, which is formed on the electrode protective layer; and an ion-exchange resin film layer formed on the binding layer. Claims 9-15 and 28 depend directly or indirectly from Claim 8.

Hence, the search and examination of the claims in Groups I and II together will not also be a serious burden as compared to the search and examination of elected Group I alone. The patentability of claims in Group I should also provide for the patentability of the claims in Group
